# BMW Individual Manufaktur. Pure Metal Silver.

Colour	Pure Metal Silver
Type	Multilayered
Code	P13
Remark	-

Pure Metal Silver is the most exclusive BMW Individual Manufaktur available. It has a unique metallic polish and brilliance through the use of special Aluminium particles and a more complex production and grinding/polishing process. Two sets of paintwork across four coats results in a glossy deep brilliance which looks almost chromed.

## Frozen paintwork cleaning and maintenance.

Due to their unique surface, Frozen paints require a different cleaning and care procedure to normal paint finishes. In particular they must not be polished or waxed. Beyond this however, Frozen paintworks are designed to be as resilient as normal metallic paintwork finishes and can even be taken through a normal car wash (so long as no waxing is included within the selected programme).

Further information on Frozen paint care can be found here:
